PARTNERSHIP OPPORTUNITIES

A 360° Partnership Solution
LEADING BRANDS, PREMIUM CONTENT

We work with partners who are looking to develop enthusiast communities in their country and grow their publishing portfolio in special interest sectors.

At Future we craft innovative products that inform, entertain and unite a global readership of enthusiasts who are passionate about their interests.

We are the UK’s no.1 licensor of special interest magazine and web content, and have agreements with publishers in over 70 different countries for titles across our portfolio.

The transferable nature of the content, along with our focus on innovation and quality, make our products particularly suitable for licensing.
Working with Future also means accessing the knowledge and insight we have across our key special interest sectors.

Our magazines and bookazines are global market leaders in their sectors because we have teams of experts across each of the key publishing disciplines.

From Editorial and Design to Circulation, Subscriptions, Marketing and Commercial we can provide you with insight and understanding of how our titles are successful to make sure that you can replicate this in your territory.

We can help you to publish more successfully.
LONG TERM STRATEGY AND GROWTH

Each of our partners has a specific Licensing Manager to work with them on a publishing strategy. They help our licensees understand how our magazines and bookazines work for readers and commercial partners and ensure this is transferred to the way licensed editions are published.

We work with our partners closely through the launch period of any magazine and throughout the first 12 months to make sure we are supporting and helping our licensees to be successful.

We create development plans for each of our partners, so that together we can build audiences and commercial relationships that help our licensees publish a portfolio of market leading magazines and bookazines in each content vertical.

This means we build profitable publishing relationships that grow.

DIGITAL LICENSING

Enabling global partners to optimise their local offering by accessing trusted brands and authoritative content, leveraging a unique commercial model developed by Future.

We offer opportunities beyond the world of print licensing with digital licensing solutions. More than a simple licensing of content and brand, we provide expertise, in-depth training, website and social analysis, global advertising opportunities with our partners, monetisable content and the opportunity to grow your e-Commerce profile.
EVENTS

Deepening Audience Engagement

We are dedicated to delivering unique experiences to loyal fans across the globe, from creating the first ever PC Gaming Show at E3 to hosting the largest photography convention in the U.K. Our expertise in convening and engaging enthusiast audiences is leveraged by our partners, and our award-winning team is available to craft bespoke sponsorship and live brand experiences.
At Future we deliver strong results for our partners through a simple formula: clever ideas underpinned by insights, which engage passionate audiences and communities.
